

"Smiley Face Bank"

Read all directions before
cutting patterns.

Note: Coin slot is cut only on one
side, which will be the back
side of the bank.

Back and front of bank
Cut 2 of 1/4" stock
#5R blade

Directions

Apply the pattern to one piece of 1/4" stock.
Drill a blade entry hole in the coin slot and
plug opening and cut them out.
Using pressure sensitive tape to hold the pieces
together stack this piece to another piece of
1/4" stock.
Cut around the outside line only.
Do not remove pattern.

Bank assembly.

Glue the back and front
pieces to the bank sides.
Cut around the inside line,
cutting through all three
thicknesses.
Finish as desired.
